EVIDECOR®

COLORED QUARTZ AND DECORATIVE STONES

STONE CARPET

STONE CARPET

Properties:

It is a granular quartz with carefully selected granulometry, artificially colored by angobar method on the surface of the granule, using a color technology system with a protected technology, property of EVIDECOR COMPANY SRL.

Technical specifications:

Form: Natural or colored quartz

Color: EVIDECOR color card-32 colors

Apparent weight: 1.40 - 1.55 kg / liter

Granulometry: 2-4 mm

Chemical: SiO_2 min.97%, Fe_2O_3 max 0.25%, Al_2O_3 max.0.6% ...

Way of usage:

EVIDECOR - Natural or colored quartz is used at the execution of epoxy resin rugs with high requirements of wear resistance anti-slip and decorative.

PERIODICAL MAINTENANCE INSTRUCTIONS:

After the application and hardening of the carpet, in between 6 to 12 months (depending on traffic intensity), will be washed, dry naturally and sealed with transparent varnish 0.4 - 0.5 kg / m².

Washing can be done with water under pressure, using amateur jet machines (avoid high pressures)

Dry naturally for at least 2.3 days until all the water from the washing process, has evaporated entirely and then the sealed of 0.4-0.5 kg / m² will be applied.

STONE CARPET

FINAL PROPERTIES OF THE DRIED QUARTZ STONE CARPER

The quartz stone carpet is an exclusive coverage, durable, and aesthetics of concrete surfaces.

Supports easy car traffic in parking areas. (max 3.5t)

It is anti-slip and self-draining.

Supports frozen water de-icing system,

the recommended temperature being max. 20-25 ° C.

It is ideal for pedestrian areas

around swimming pools because

it can circulated with empty legs (it doesn't burn the soles).

Chemical strength:

Sodium hypochlorite 5.5% Excellent 0.63

Formaldehyde 10% 0.72 Excellent

Ethanol 15% 0.98 Excellent

Ethanol 95% 7.22 Good

Butyl acetate 20.88 Mild

Gasoline 0.20 Excellent

Xilen 6.20 Good

Sodium hydroxide 10% 0.63 Excellent

Lactic Acid 10% 2.31 Very good

Acetic acid 10% Excellent 1.23

Sulfuric acid 10% 1.42 Very good

Sulfuric acid 50% Excellent 0.41

Phosphoric acid 10% 2.28 Very good

Nitric acid 10% 1.03 Excellent

Ammonia 10% 0.67 Excellent

Saltwater 0.1 Excellent

STONE CARPET

Mechanical strength:

Compressive strength N / mm² (UNI429) 70
Compressive elasticity modulus N / mm² (UNI429) 1110
Bending resistance N / mm² (UNI 7219) 33
Bending resistance mode N / mm² (UNI 7219) 1160
Traction resistance N / mm² (ASTM D 638) 47
Tensile elongation% (ASTM D 638) 10.5

WARRANTY OF THE STONE CARPET:

The warranty of the stone carpet is provided by the applicator as long as the stipulated conditions of the present Technical sheet, are precisely followed as well as the normative quality of the stone carpet application S.T. 10/2016. The warranty is 3 years, under the instructions of periodic maintenance from this technical data sheet (transparent resin seal after the first 6-12 months). The following maintenance seals are made at intervals of max 2 years or faster depending on traffic intensity on the stone carpet.

For subject areas with low pedestrian traffic, the maintenance after 2 years can be done with sealing in smaller quantities, respectively 300 gr / sqm (square feet) or they can be sealed at intervals of 3 years.

The average life of the stone carpet is 10 years. The manufacturer and applicator are exempt from any law obligation that derives from defective or unfit maintenance of the stone carpet, not in accordance with the present technical data and S.T.10 / 2016 by the owner of the carpet. The manufacturer and applicator of the stone carpet, have the obligation to provide to the final beneficiary of the stone carpet, for a fee charge, complete necessary materials for the maintenance of the stone carpet for a period of 10 years !

EVIDECOR[®]
COLORED QUARTZ AND DECORATIVE STONES

STONE CARPET

The EVIDECOR team :

With an experience of over 16 years,
permanently open to innovation and
new challenges.

All horizontal and vertical finishing systems
of EVIDECOR brand
are created, stued, tested and
guaranteed by EVIDECOR COMPANY ROMANIA.
Along with decorative finishes
EVIDECOR, through the specialized team
Ferma de Buburuze,
a variety of works in design construction with
personalized character can be executed.
Rigips, installations,
personalized decorations,
including garden, garden arrangements and
exclusivist green spaces.
